SUMMARY

I'm a detail-oriented QA intern with experience in exploratory testing and bug reporting. I was one of the top testers in my previous internship and love catching even the tiniest issues. I've also led a lot of school projects, so I work well in teams and take initiative. I'm excited to keep learning more about QA and improve my skills as a tester.

WORK EXPERIENCE

Team Lead & Full-Stack Developer – Seekr <i>STI College Alabang (Capstone Project)</i>	Jan 2025 - Ongoing
<ul style="list-style-type: none">Leading the development of a job search and OJT tracking platform for students, employers, and coordinators.Integrated custom Feedback Reporting App for in-app issue submission.Oversees sprint planning, team coordination, and code review.
